

The Wonders of Winter

Winter is long and longer but we try to make the best of it. Here's a few pictures of some of the funny monuments and rides

Playing is important too!!! We should all take time and enjoy a good laugh or the beauty around us. Below I think the horses were playing football, running for a touchdown!!!

Of course the winter is a time for resting and eating and Holidays like Valentines and Superbowl to enjoy.

Some folks just enjoy getting out and riding (and texting?)

Spring is coming, we all feel it with longer days and less colder days in a row (yea as I'm writing this its -10 outside) But we know spring will come in a month or two.
